

I have owned one of these radios for 2 years, I am a truck driver and I do benefit from the reports that I can find on this system. It would be a huge mistake for you to remove these channels from the system, every trucker that has one benefits from it. I do not believe that anyone has the right to tell me what I can and can not listen to...this radio is the best thing that has happened to radio period. I enjoy being able to hear what I want when I want.Sincerely,

Neal Recknagle a.k.a The Ramblin Wreck

P.S. this is my daughters email address.
